In addition to promoting your books assiduously on-line, there are a number of different strategies that may help you sell extra books.

One is to offer something away for free along with your book, resembling an invaluable bonus item. Or bundle several ebooks underneath one price, which lowers the worth for each ebook in the event that they were sold separately.

An effective technique for determining a worth is to ship out a survey to your present customers. If these clients have already purchased an ebook from you, ask for their opinion when it comes to price. Do that by creating a gross sales page for the brand new book, but don't include a price on that page. Instead, add a number of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out prices by making a variety of duplicate gross sales pages with different prices on each page. Make certain your sales copy is strictly the identical on each web page, and consists of your selling-handle sentence. Then figure out for every web page the conversion ratio between visitors to your web site and sales of your book. This may tell you what your optimum price is.

Ultimately, should you've written a book that solves a downside or presents a brand new technique, your ebook will herald each site visitors and profits. So make sure to write that selling-handle sentence that sums up what downside your ebook solves and what the benefits of your book will probably be to the purchasers who purchase it. And then watch your market come to you!
