In addition to selling your books assiduously online, there are a number of other strategies that may make it easier to sell extra books.

One is to give one thing away free of charge along with your ebook, such as a useful bonus item. Or bundle several ebooks underneath one price, which lowers the price for every book in the event that they were bought separately.

An efficient approach for determining a value is to ship out a survey to your current customers. If these prospects have already bought an e book from you, ask for their opinion when it comes to

price. Do that by making a gross sales web page for the new e-book, but do not embrace a worth on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another strategy is to test out costs by creating a number of duplicate sales pages with totally different costs on each page. Be certain that your gross sales copy is strictly the similar on every web page, and contains your selling-deal with sentence. Then determine for each web page the conversion ratio between visitors to your site and gross sales of your book. This will let you know what your optimum worth is.

In the end, in case you've written a guide that solves a drawback or presents a brand new technique, your guide will bring in both site visitors and profits. So you should definitely write that promoting-deal with sentence that sums up what problem your e book solves and what the benefits of your 40 book might be to the customers who buy it. And then watch your market come to you!
