Besides selling your books assiduously online, there are several different strategies that may allow you to promote more books.

One is to give something away without spending a dime together with your ebook, akin to a helpful bonus item. Or bundle several ebooks underneath one worth, which lowers the value for every e-book if they had been bought separately.

An effective approach for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an ebook from you, ask for his or her opinion in terms of price. Do that by making a gross sales page for the new ebook, but do not embody a price on that page. As an alternative, add plenty of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to check out prices by creating a variety of duplicate gross sales pages with totally different prices on each page. Be sure that your sales copy is strictly the identical on

each page, and consists of your promoting-handle sentence. Then work out for every web page the conversion ratio between visitors to your web site and sales of your book. This may inform you what your optimum worth is.

Finally, if you've written a book that solves a drawback or presents a new technique, your e-book will herald both site visitors and profits. So make sure you write that selling-handle sentence that sums up what downside your guide solves and what the advantages of your 504 ebook will likely be to the shoppers who buy it. And then watch your market come to you!
